Application for New Food Service Establishment Checklist

The Cass County Health Department requires that properly prepared plans be submitted to the Cass County Health Department (CCHD) before a food service establishment is constructed or extensively remodeled, or when an existing structure is converted for use as a food establishment. Prior to constructing or opening your facility, you must complete and submit the information sheets enclosed, along with the appropriate fee.

The CCHD will review this information prior to construction and offer conditional approval. Once construction has been completed, CCHD will conduct a pre-opening inspection to determine the degree of compliance with the food code requirements. Prior to opening all employees must attend a food handler training session, either in person or online. Once these steps are completed, a County Food Permit will be issued for the food facility.

Your application must include the following:

- A detailed floor plan with specifications including equipment placement, plumbing, mechanical and electrical information
- A completed permit application and fee submitted to the department
- Menu and detailed food preparation
- Food Service Manager Certification (depending on risk classification of restaurant)
- All employees must possess either a Food Service Manager Certificate, or a Food Handler Certificate.

A permit fee of $100.00 must accompany each set of plans submitted.

INSPECTION PROCEDURE- Three inspections are required prior to opening:

1. Pre-Construction Inspection- This is required before construction begins, and after all your application materials have been turned in to the Health Department.
2. Construction Inspection- A construction inspection is done when interior finishes are complete and equipment has been installed.
3. Opening Construction- This will be done when all remodeling or construction is complete and the facility is clean and ready to operate.

No construction or remodeling is to begin before the permit application has been reviewed and the pre-construction inspection has taken place. Food License to open WILL NOT be issued until codes are met and the facility is close to opening, required inspections made, and required fee is paid.

IT IS ILLEGAL TO OPERATE A FOOD SERVICE OR FOOD STORE WITHOUT A VALID PERMIT ISSUES BY THE LOCAL HEALTH DEPARTMENT
APPLICATION FOR NEW FOOD SERVICE ESTABLISHMENT PERMIT

Type of construction (circle one):  New    Addition/Remodel    Ownership Change

Name of Establishment: ____________________________
